PAINTING TOOLS

MORE THAN 50 NEW PRODUCTS

As FSC®-certified enterprise
we use wood out of
sustainably managed forests.

For our paint trays, -grids and
-buckets, we use recycled
plastic material in a big scale.

YOUR ADVANTAGES

Continuous product tests

Continuous product tests in cooperation with applicants lead to optimized product characteristics.

Worldwide activities

We supply to countries all over the world. Our wide range of goods also with preferential origin might help you to reduce your import cost.

Know-how

Steady training provides skill. By this, our team creates competence.

Sustainability

As FSC®-certified enterprise we use wood out of sustainably managed forests.

NEW Totally modified Point of Sale

INTUITIVE CUSTOMER GUIDANCE – CLEAR SALES DECISION

Fast orientation and optimal customer guidance are most essential to get satisfied customers. Tests prove the best: using the proper guiding system, your customers do not only buy more, but also higher quality.

- 1** The mako-colour guidance system clearly separates the products in the Point of Sale according to their application.
- 2** Coloured head panels with eye-catching photos of application lead the customer to the right product for his purpose.
- 3** Horizontal separators offer additional orientation and information.
- 4** Horizontal information panels showing high quality products attract customer's attention.
- 5** Information panels on the roller baskets show the customer the right painting tool for his working surface.
- 6** Easy understandable product packings with coloured pictograms showing application purpose and quality standard.

New bristle mixes for woodcare and dispersion paints

INNOVATIVE BRISTLE MIXES CREATE QUITE A NEW DIMENSION OF QUALITY

Following advantages go along with our synthetic mixes
all for wood and all for wall:

- 1 Much longer lifetime** compared to natural China bristle due to a better abrasion resistance
- 2 Easier to wash out**
- 3 Higher paint intake** due to additional capillaries (mix of conical and cylindrical bristles)
- 4 Homogeneous paint distribution** due to more painting fibres in the top
- 5 No swelling** in watery paints, no change in the bristle shape

NEW

Wall & Facade

All for wall-bristle

Mako **all in one-Premium-varnishing** brushes:
Now with attractive blue-white bristle similar to
the guiding colour

NEW

For all wood glazes
All for wood-bristle

NEW Woodcare-, wall & facade brushes in KOMFORT and PREMIUM quality now also with FSC®-certified wood

THE BRUSH FOR HIGHEST DEMANDS

Our new **PROLINE**-series, superiority in detail: new invented synthetic bristle mixes for woodcare and dispersion paints and a rustfree and tight PE-ferrule. More than one plus:

- 1 No break of bristles & no swelling** of the fibre due to the flexible PROLINE synthetic bristle
- 2 High paint intake & homogeneous paint distribution** because of new bristles with capillary effect
- 3 Perfect painting & surface finish** with the new bristle mix
- 4 No water or paint residues** at the ferrule due to being completely glued with the handle
- 5 Xtra long ergonomic brush handles** made from FSC®-certified natural wood

Longlife and easy to clean

The brush profile shows it: Due to the complete area being glued, there stay no hollow spots in the ferrule – consequently no water or paint residues in the ferrule as well.

FOR ALL VARNISHES

Flat brushes	34 - 35
Ring brushes.....	36
Radiator brushes, etc.	37
Block brushes	38
Rollers.....	39 - 41

Painting tools for all varnishes

The following brushes and rollers can be used for solvent- as well as for waterbased paints

mako all in one-bristle – the best for all kinds of varnishes

The mako all in one-bristle is our response to the steady R & D in the field of paints to match the European VOC-guidelines. With just one brush, you can paint all standard acrylic paints and synthetic enamels.

All around handles – ergonomic. Multifunctional.

Our brush series ERGO 2K was developed to offer our clients the optimum in terms of function and ergonomics. Shape and material had been focus of our consideration. Thus we created a brush enabling you to paint safely and cosy for hours and hours ... without tiring at all. Some smart ideas like the tin opener with scratcher give an additional use to the tool.

Varnishing flat brush – tested by „selbst ist der Mann“

If I had a hammer ...

Our flat brush with ERGO handle and all in one-bristle was awarded not with only one, but with five hammers by the DIY-periodical "selbst ist der Mann": Simply the best.

Special application	54

NEW

Discover our new
woodcare brushes with
the all for wood-bristle

Painting tools for all wood glazes

The following brushes and rollers can be used for solvent- as well as for waterbased wood glazes, protection paints and oils.

NEW The mako all for wood-bristle stands for excellent glazing results

The all for wood-bristle is our response to the steady R&D in the field of wood glazes to match the European VOC-guidelines. With just one brush, you can paint each kind of water-and solvent based glazes as well as wood protection agents.

Further advantages of this new developed synthetic bristle mix are:

- 1 No break of bristles & no swelling**
due to flexible all for wood-synthetic bristles
- 2 High paint intake & homogeneous paint distribution**
due to bristles with capillary effect
- 3 The optimized synthetic bristle mix proves excellent glazing results & a long reach**

bigger roller diametres

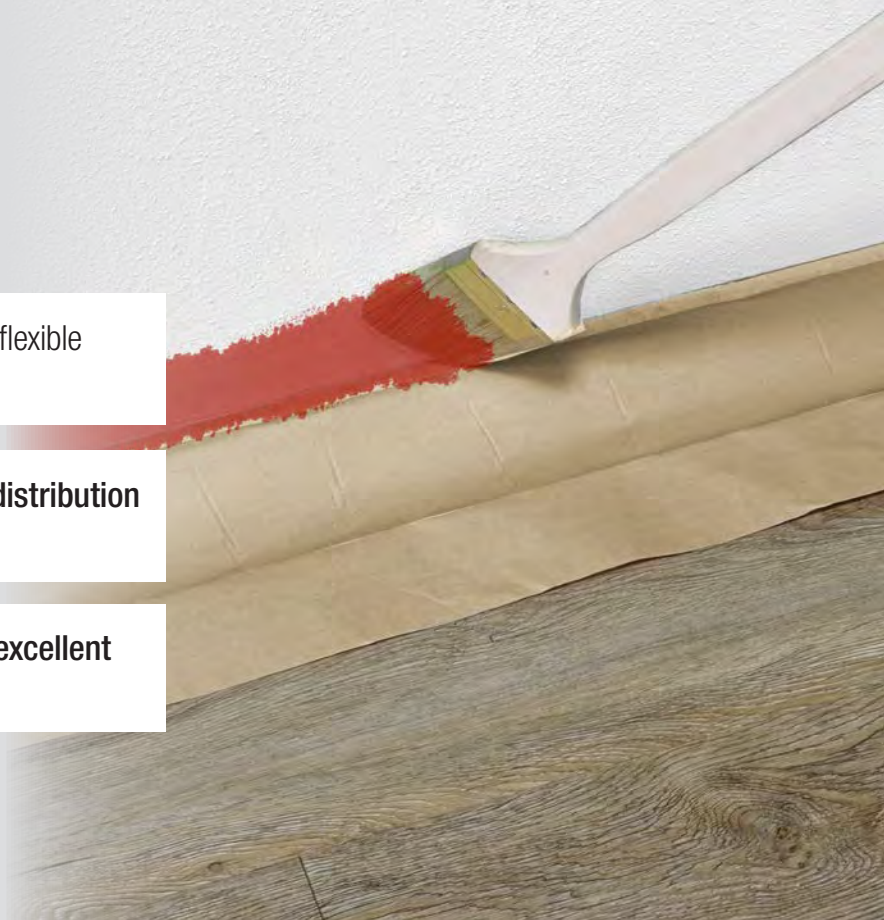

NEW

All for wall-bristle mix for wall & facade

The new all for wall-bristle mix
shows following advantages:

- 1 **No break of bristles & no swelling** due to flexible all for wall-synthetic bristles
- 2 **High paint intake & homogeneous paint distribution** due to bristles with capillary effect
- 3 The optimized synthetic bristle mix provides **excellent painting results & sharp-edged cutting**

Bigger diameter – higher reach

PREMIUM-ROLLERS NOW WITH INCREASED DIAMETRES

All Premium-rollers with synthetic coating now come with an increased core diameter of 56 mm. Clear advantages thereof:

- 1 Higher paint input per turn
- 2 Higher reach due to bigger diameter
- 3 Almost splash-free rolling due to lower turning speed

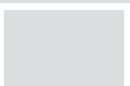

NEW: With our optimized info inserts, your clients on the spot realize for which surfaces the rollers should be used for.

Paintrollers for structured surfaces

Following rollers are for smooth surfaces such as concrete, smooth fleece wallpaper, drywall fair faced plaster, etc.

smooth surfaces

Winner award 2018 by the DIY-magazine „selbst ist der Mann“

Within five categories the editorial office pre-selected three items each to present them for the election "reader's award 2018 „selbst ist der Mann“, a German DIY-periodical. Around 3000 readers voted for their individual favorite in the fields of living, construction, handtools, electric tools and garden.

Product of the year

Our plug- and switch masking foil was elected "Product of the year 2018" in the category "construction".

More than 200 products had been tested and judged in 2018 by the DIY-magazine „selbst ist der Mann“. In edition 5/2018 our product was awarded with 5 hammers – best price.

Plasterer's masking tape, white, cross-fluted

KOMFORT
★★★

- Soft PVC foil, white
- Natural rubber glue
- Temperature-resistant up to appr. 70° C
- Application period: 6 weeks
- **Make-up:** Self-service label

Application:

- Masking of sensitive surfaces at plastering- and painting works
- In- and outdoor
- Smooth surfaces

Size	Art.-no.	PU 1	PU 2	EAN 4002168
38 mm x 33 m / white	8324 38	8	48	..832437
50 mm x 33 m / white	8324 50	6	36	..832451

Plasterer's masking tape, yellow, cross-fluted

KOMFORT
★★★

- Soft PVC foil, yellow
- Natural rubber glue
- Temperature-resistant up to appr. 70° C
- Application period: 6 weeks
- **Make-up:** Self-service label

Application:

- Masking of sensitive surfaces at plastering- and painting works
- In- and outdoor
- Smooth surfaces

Size	Art.-no.	PU 1	PU 2	EAN 4002168
38 mm x 33 m / yellow	8324 37	8	48	..832406
50 mm x 33 m / yellow	8324 49	6	36	..832444

Duo tape, double-sided adhesive

KOMFORT
★★★

- Soft PVC foil, green / white
- Acrylate glue
- Temperature-resistant up to appr. 60° C
- Strongly resistable
- Rear completely coated
- Front partially coated, to fix masking material
- Application period: 6 weeks
- **Make-up:** Self-service label

Application:

- For large-scale masking works whilst plastering gypsum- or painting works.
- In- and outdoor
- Smooth surfaces

Size	Art.-no.	PU 1	PU 2	EAN 4002168
25 mm x 25 m	8321 25	12	72	..832123
35 mm x 25 m	8321 38	8	48	..832130

Stone tape for in- and outdoor

PREMIUM
★★★★

- Polyester fabrics, silver
- Synthetic rubber glue
- Temperature-resistant up to appr. 65° C
- Water-repellent
- **Make-up:** Self-service label

Application:

- For strongly structured surfaces such as plaster or stone

Advantage:

- Very flexible
- Easy tearoff

Size	Art.-no.	PU 1	PU 2	EAN 4002168
50 mm x 50 m	8312 25	1	24	..831263

Residues after removal from sensitive and smooth surfaces might occur.

Anti-crack tape, indoor

KOMFORT
★★★

- Fibre fleece, white
- Xtra thin and even
- Very flexible
- **Make-up:** Self-service label

Application:

- To close cracks and holes without plastering

Advantage:

- Can be painted and wallpapered on the spot

Size	Art.-no.	PU 1	PU 2	EAN 4002168
50 mm x 10 m	8326 50SB	6	36	..832604

Fibreglass mesh tape

KOMFORT
★★★

- Glassfibre fabric, white
- Acrylate glue
- Highly resistable
- Easy to smooth
- **Make-up:** Self-service label

Application:

- To repair cracks, holes in ceilings and walls as well as to joint gypsum plasterboards

Size	Art.-no.	PU 1	PU 2	EAN 4002168
50 mm x 20 m	8327 20	6	60	..832727
50 mm x 45 m	8327 45	6	48	..832741
50 mm x 90 m	8327 90	6	24	..832796

mako stone tape for in- and outdoor use
the perfect masking on stone and concrete.

Aluminium tape

PREMIUM
★★★★★

- Soft aluminium silver
- Acrylate glue
- Temperature-resistant up to appr. 100° C
- Water- and lubricant resistant
- **Make-up:** Self-service label

Application:

- Very good for glueing insulation mats and pipe insulation
- To seal and repair car bodies

Size	Art.-no.	PU 1	PU 2	EAN 4002168
50 mm x 10 m	8340 00SB	6	36	..834004

Foil tape, aluminium vaporized

KOMFORT
★★★

- Aluminium vaporized PP-foil, silver
- Acrylate glue
- Water-, lubricant- and aging resistant
- **Make-up:** Self-service label

Application:

- Unless there are deviating binding building regulations, it can be used as seam tape for insulation boards or as vapour barrier tape

Size	Art.-no.	PU 1	PU 2	EAN 4002168
50 mm x 50 m	8340 50SB	6	36	..834011

Warning tape

KOMFORT
★★★

- PVC foil, red/white
- Tearproof
- **Make-up:** Self-service label

Application:

- To mark danger areas and construction sites
- Not glueing

Size	Art.-no.	PU 1	PU 2	EAN 4002168
80 mm x 100 m	8341 99	5	20	..834196
80 mm x 500 m	8341 00	5	35	..834127

Warning tape, self-adhesive

KOMFORT
★★★

- PVC, black/yellow
- Rubber glue
- Xtremely tearproof
- Easy and quiet unrolling
- **Make-up:** Self-service label

Application:

- For shortterm marking works in danger zones
- One side self-adhesive

Size	Art.-no.	PU 1	PU 2	EAN 4002168
60 mm x 33 m	8341 51	6	36	..834141

Foil floor laying tape

BASIC

- PP-foil
- Hotmelt-glue
- Both sides self-adhesive
- Multi-purpose application
- Not suitable for PVC floorings
- **Make-up:** Self-service label

Application:

- For floors for normal use
- For floorings with even back
- Suitable for glueing most different material

Size	Art.-no.	PU 1	PU 2	EAN 4002168
50 mm x 5 m	8317 05	5	45	..831751
50 mm x 10 m	8317 10	5	40	..831713
50 mm x 25 m	8317 25	5	30	..831720

Floor laying tape

KOMFORT

- Textile fabric
- Hotmelt-glue, both sides self-adhesive
- Strong adhesion due to thick glue layer
- Not suitable for PVC floorings
- **Make-up:** Self-service label

Application:

- For floors with smooth or fabric backside
- For heavy-duty floors
- For almost all undergrounds

Size	Art.-no.	PU 1	PU 2	EAN 4002168

Dust protection door for renovation works

- Dustproof polypropylene-fleece with high quality zipper
- Double-sided adhesive tape, removable without residues 38 mm x 7 m
- For door openings up to 1,00 x 2,30 m
- **Make-up:** Polybag with info insert

Application:

- Reliable protection from dust whilst renovation works.

Advantage:

- Cuttable to any shape
- Easy mounting

Size	Art.-no.	PU 1	PU 2	EAN 4002168
1.10 m x 2.40 m	8377 01	1	5	..837708

Excellent dust protection during renovation works such as:

- Drywall
- Wall opening
- Bathroom modernizing and other dust-provoking works
- Parquet sanding
- Ceiling renovation

The **mako dust protection door** due to the attached adhesive tape, can be mounted within a few minutes. After renovation it is easy to remove without glue residues again in only a few minutes.

Protect your rooms from bothersome dust whilst renovating!

Tarpaulin

8369 18	8.0 x 10.0 m	Boats, buildings

ELITE Tarpaulin

- Environmentally friendly, recyclable polyethylene composite
- Extremely tearproof, elastic and long-living due to patented manufacturing process laminated multiple times and welded together by ultrasonic-technology, triple reinforced corners for a maximum of tensile strength
- 50 cm distance from eyelet to eyelet (half as much as with standard tarpaulins)
- 5 years warranty upon UV-resistance.
- True size, NO cut size
- Xtra light, only 120 g/m²
- **Make-up:** Polybag with info insert

Size	Art.-no.	PU 1	PU 2	EAN 4002168
1.5 m x 6.0 m	8369 08	1	12	..836923

8.0 m x 10.0 m	8369 18	1	-	..836640

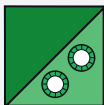

5 years warranty

When used as intended
5 years warranty upon UV-resistance.
The plastic material in use avoids weathering for many years. For sure!

„Selbst ist der Mann“

The DIY-magazine „Selbst ist der Mann“ submitted ELITE-tarpaulins to an internal test and judged them as "excellent".

Reinforced edges

The triple reinforced edges assure highest tensile strength

Eyelets

Twice as many eyelets as most of the standard tarpaulins. Advantage: More eyelets, better tensioning

Waterproof

The heat sealing of the different layers makes it 100%-waterproof - for years!

True size vs. Cut size

In true size, a tarpaulin 3 x 4 m is real 12 m². In contrast, cut size means that the hem is deducted (That means actually almost 1 m² less in area with a 12 m² tarpaulin!)

Point of Sale presentation

ELITE tarpaulin stand

- Available upon request for initial equipment
- Harmonized and clear presentation
- Optional lateral placement of lashing cord and tarpaulin fasteners
- Mobile wheels allow individual positioning in the shop

Sample

- A sample of the sturdy eyelet is integrated in each packing.
- Convince yourself of the top quality!

A real
all-rounder

Flexible-Trims

- For all floor coatings
- Flexible reducer-, fitting- and end trim
- With basis trim
- Turning axes levels out differences in height up to 20 mm

Height adaption
by different screw
lengths

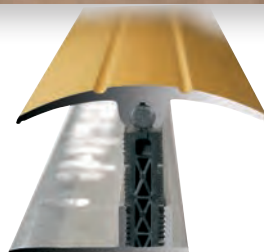

To mount (by glueing
or screwing) onto basis
trim, ideal for heated
floors

The flexible solution –
without visible
screws

Clip-Trims

- For all floor coatings
- Flexible reducer- and fitting trim
- Turning axes levels out differences in height up to 16 mm
- Elegant design – invisible screws

Hightech-Nylon
dowels for safe,
long-lasting hold

To mount (by glueing
or screwing) onto basis
trim, ideal for heated
floors

The simple solution
no screws, no drilling

Self-adhesive trims

- For all floor coatings,
except long-hair carpets
- Transition- and angle trims

Fast and simple assem-
bling. Remove foil.
Press trim onto ground.
That's it.

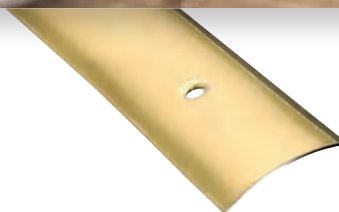

Permanent hold with
high-quality-, non-
shrink glues

The classic to
screw

Screwing trims

- For all floor coatings
- Transition-, end-,
angle- and stair edge
trims

Anodised drill holes
Screws & trims in the
same colour
